

WBF-EXPERTENFORUM 2017

Mitwirkende Experten

Wissenschaftliche Mitglieder des WBF

Univ.-Prof. DI Dr. Norbert VANA

Vorsitzender des WBF

Prof.i.R. an der TU Wien, Atominstitut der Österreichischen Universitäten, Bereich „Strahlenphysik, Strahlenschutz, strahlenphysikalische Archäometrie, nukleare Messtechnik“

ao.Univ.-Prof.i.R. Dr. Christian WOLF

Stv. Vorsitzender des WBF

Facharzt für Innere Medizin sowie für Arbeits- und Betriebsmedizin

Univ.-Prof. DDr. Alfred BARTH

Universitätsprofessor für Arbeitspsychologie

Sigmund Freud Privat Universität Wien, Leitung Institut für Psychologie Linz

GF Wiener Akademie für Arbeitsmedizin und Prävention

ao.Univ.-Prof. Dr. Gerald HAIDINGER

Zentrum für Public Health an der Medizinischen Universität Wien,

Abteilung für Epidemiologie; Facharzt für Sozialmedizin/Public Health

Dr. Doris MOSER

Klinische und Gesundheitspsychologin

Neuropsychologische Ambulanz und Spezialambulanz für Schlafstörungen an der Universitätsklinik für Neurologie, Medizinische Universität Wien

DI Dr. Georg NEUBAUER

Senior Scientist und Projektleiter im Geschäftsbereich Safety & Security des Austrian Institute of Technology

Universitätslektor an der TU Wien

o.Univ.-Prof. DI Dr.techn. Karl-Peter PFEIFFER

Wissenschaftlicher Geschäftsführer der FH Joanneum Gesellschaft mbH., Medizinische

Universität Innsbruck - Department für Medizinische Statistik, Informatik und

Gesundheitsökonomie; Leiter des Arbeitskreises „Nationale eHealth-Strategie“ der österreichischen „eHealth-Initiative“

Prim. Univ.-Prof. Dr. Reinhart WANECK

Vizepräsident des Verbandes der leitenden Krankenhausärzte Österreichs

Vertreter des OSR (Oberster Sanitätsrat) im WBF

Univ.-Prof. DDr. Josef ZEITLHOFER

Prof. i.R., Facharzt für Neurologie und Psychiatrie, vormals Oberarzt an der Neurologischen

Universitätsklinik Wien, Leiter der Abteilung für Klinische Neurophysiologie, Leiter der

Sonderambulanz für Epilepsie, Leiter der Sonderambulanz für neuromuskuläre

Erkrankungen, Leiter der Schlafambulanz

Externe wissenschaftliche Experten

Univ.-Prof. Dr. Mag. Dr. Christopher GERNER

Professor für Trenntechniken und Bioanalytik an der Universität Wien, Fakultät für Chemie

Univ.-Prof. Dr. Herbert HÖNIGSMANN

em. Vorstand der Universitätsklinik für Dermatologie, Medizinische Universität Wien Facharzt für Dermatologie und Venerologie

Assoziierter Prof. Priv.-Doz. Dr.med. Rupert LANZENBERGER

Hirnforscher und Experte für Molekulare und Funktionelle Bildgebung des Gehirns Leiter des Neuroimaging Labs (NIL) an der Universitätsklinik für Psychiatrie und Psychotherapie, Medizinische Universität Wien

Prim. Univ.-Prof. Dr. Stephan MADERSBACHER, FEBU

Fellow of the European Board of Urology, Generalsekretär der Österreichischen Gesellschaft für Urologie, Vorstand der Abteilung für Urologie und Andrologie - EBU Certified Training Center - Kaiser-Franz-Josef-Spital, Wien

ao.Univ.-Prof. Dr. Wilhelm MOSGÖLLER

Medizinische Universität Wien

Prim. Univ.-Doz. Dr. Csilla NEUCHRIST

Vorstand der HNO-Abteilung am Landeskrankenhaus Mistelbach

Astrid RASCHIG

Studentin an der TU Wien (Elektro- & Informationstechnik)

em.Univ.-Prof. Dr. Kurt WIDHALM

FA für Kinder- und Jugendheilkunde, FA für medizinische und chemische Labordiagnostik, Humangenetik, Professor für Ernährungsmedizin, gerichtlich zertifizierter Sachverständiger

WBF-Expertenforum im Dezember 2017

Die aktuelle Studienlage bestätigt einmal mehr:

Keine Gesundheitsgefahr durch Mobilfunk

Wien, Jänner 2018.

Seit fast eineinhalb Jahrzehnten steht der WBF (Wissenschaftlicher Beirat Funk) dem Bundesministerium für Verkehr, Innovation und Technologie (BMVIT) als beratendes Organ auf dem Gebiet des Mobilfunks und dessen Auswirkungen auf die menschliche Gesundheit zur Seite.

Die aktuelle Konsensus-Konferenz des WBF tagte im Dezember 2017 und kam erneut zu dem Ergebnis, dass eine Gesundheitsgefährdung des Menschen durch Mobilfunk nach aktuellem Stand der Wissenschaft auszuschließen ist.

Geprüft und bewertet wurden 193 - im Zeitraum von Juli 2016 bis inklusive Juni 2017 publizierte - wissenschaftliche Arbeiten. Wobei neben den Wissenschaftlichen Mitgliedern des WBF wieder eine Reihe externer Experten unterschiedlichster Fachgebiete an der Prüfung der Studienlage und am Konsensus-Beschluss mitwirkten.

Untersucht wurden Studien der folgenden Bereiche: Störungen der Befindlichkeit, Nervensystem, Gentoxizität, Kinder und Jugendliche, männliche Fertilität, Hals-Nasen-Ohren, Tumorentwicklung und Dosimetrie.

Die aktuelle Studienlage zeigt, dass immer mehr Forschergruppen aus Nicht-Industrieländern sich mit der Thematik beschäftigen, jedoch teilweise Arbeiten und damit Ergebnisse höchst fragwürdiger wissenschaftlicher Qualität abliefern. „Wir sind zunehmend mit Arbeiten konfrontiert, für die eine wissenschaftliche Bewertung wegen gravierender Fehler im Studiendesign von vornherein nicht in Betracht kommt. Rund 20% der Studien waren davon betroffen“, berichtet Univ.-Prof. DI Dr. Norbert VANA, Strahlenphysiker und Vorsitzender des WBF.

Interessante dosimetrische Aspekte

Im Rahmen einer umfangreichen Studie zur Frage der Beeinflussung medizinischer Geräte (z.B. Monitor, Respirator, EKG, Defi, Dialysemaschine, Pumpen) durch Smartphones wurde erneut festgestellt, dass eine Störung der Geräte nicht stattfindet, wenn ein Mindestabstand von 38 cm eingehalten wird.

Durch die Installation von Mikro- und Minisendern (Femtozellen, Pikoellen, Attozellen) in Räumen kann die Belastung durch elektromagnetische Felder des Mobilfunks drastisch reduziert werden.

Auf Bahnhöfen sowie in öffentlichen Verkehrsmitteln und im Auto ist die Exposition - ausgehend von Mobilgeräten telefonierender Personen - am größten.

Ein neuer Aspekt ergab sich für die moderne Zahnmedizin: „Eine iranische Studie hat aufgezeigt, dass Zahnimplantate aus Metall einen erheblichen Einfluss auf SAR-Werte haben. Es wäre interessant, diese Beobachtung genauer zu verifizieren“, so DI Dr. Georg NEUBAUER, Experte am Austrian Institute of Technology und langjähriges Wissenschaftliches Mitglied des WBF. Wobei allerdings darauf hinzuweisen ist, dass bei der angesprochenen Untersuchung die international anerkannten Grenzwerte nicht überschritten wurden.

Kinder und Jugendliche: psychologische Effekte

Nach wie vor gibt es keine Hinweise auf mögliche Gesundheitsschädigungen bei Kindern und Jugendlichen.

Auffälligkeiten - auch solche bei Kindern, deren Mütter in der Schwangerschaft häufig Gebrauch von Mobiltelefonen machten - sind wohl nicht primär auf die elektromagnetische Strahlung zurückzuführen, sondern z.B. auf geändertes Sozialverhalten.

In diesem Zusammenhang betonte Univ.-Prof. Dr. Kurt WIDHALM, Experte für Kinder- und Jugendheilkunde sowie für Labordiagnostik, Humangenetik und Ernährungsmedizin: „Wir beobachten seit einigen Jahren ein neues Suchtsyndrom in der Pädiatrie, das vom übermäßigen Gebrauch von Mobiltelefonen auch während der Nachtstunden herrührt. Durch das vom Handy ausgehende Licht erleiden die Betroffenen massive Schlafstörungen mit allen bekannten negativen Konsequenzen.“

Mobiltelefone und männliche Fertilität

Angesichts immer wiederkehrender Medienberichte über schädigende Auswirkungen des Mobilfunks auf die Spermienqualität legt der WBF Wert auf die Feststellung, dass durch die bisher vorliegenden Studien ein negativer Einfluss auf die Zeugungsfähigkeit von Männern nicht nachgewiesen werden konnte.

Tumorentwicklung durch Mobilfunk

Dazu Univ.-Prof. Dr. Gerald HAIDINGER, Epidemiologe und Wissenschaftliches Mitglied des WBF: „Aus epidemiologischer Sicht gibt es keine neuen Anhaltspunkte für einen Zusammenhang zwischen Mobilfunk und Tumorentwicklung.“

Zukunftsthema:

Smart City, selbstfahrende Autos, 5G-Mobilfunk

Einen großen Aufgabenbereich für die Zukunft sieht der WBF in den neuen Funktechnologien - speziell auch im Zusammenhang mit dem Mobilfunk der 5. Generation (5G). Aufgrund der großen Datenmengen wird man - wie DI Dr. Georg NEUBAUER erörtert - bei 5G auf hohen Frequenzen (typischerweise jenseits der 10 GHz) übertragen, wodurch sich viele offene Fragen ergeben, die es zu lösen gilt.

Eine noch nicht abzuschätzende Exposition hinsichtlich hochfrequenter elektromagnetischer Felder wird durch autonom fahrende Kraftfahrzeuge entstehen. „Radarsysteme werden aus allen Richtungen auf uns einwirken. Dafür werden wir ein ganz neues Beurteilungsschema brauchen - SAR-Werte haben ausgedient“, konkretisiert Univ.-Prof. Dr. Christian WOLF, Internist und Arbeitsmediziner sowie Stv. Vorsitzender des WBF.

In dieselbe Kerbe schlägt der WBF-Vorsitzende: „Mit dem Ausbau von ‚Smart City‘ werden sich völlig neue Aufgabenfelder auftun, die mit Sicherheit auch Gegenstand der Arbeit des WBF sein werden“, resümiert Prof. Dr. Norbert VANA.

Umsichtiger Umgang mit dem Mobilfunk

Auch wenn die derzeitige Studienlage keinen Grund zur Besorgnis gibt, mahnt der WBF auch weiterhin zum umsichtigen Umgang bei der Verwendung von Mobilfunktechnologien. Wobei die WBF-Experten einmal mehr darauf hinweisen, dass ihre Aufgabe primär in der Risiko-Bewertung liegt, nicht jedoch im RisikoManagement. Prof. VANA: „Vorsorge ist nicht unser Job - diese fällt in die politische Verantwortung.“

Wobei jedoch - wie Prof. VANA betont - vom WBF bisher insgesamt ca. 1.500 Studien geprüft und bewertet wurden und bis heute unverändert feststeht, dass bei Einhaltung der Grenzwerte ein schädlicher Einfluss auf die menschliche Gesundheit durch die Verwendung des Mobilfunks auszuschließen ist.

Current Understanding of the Health Effects of Electromagnetic Fields	2017-04	Miah T, Kamat D		Pediatric annals, Vol 46 (4), Apr 2017
Acute effects of radiofrequency electromagnetic field emitted by mobile phone on brain function	2017-04	Zhang J, Sumich A, Wang GY	School of Electrical Engineering and Automation, Tianjin University, China; Division of Psychology, School of Social Sciences, Nottingham Trent University, UK; Department of Psychology, AUT University, New Zealand	Bioelectromagnetics, Vol 38 (5), Apr 2017, pp. 329-338
Letter to the editor: Can body-worn devices be used for measuring personal exposure to mm waves?	2017-04	Thielens A, Martens L, Joseph W	Department of Information Technology, Ghent University, Belgium	Bioelectromagnetics, Vol 28(3), Apr 2017, pp. 239-242

<p>Symptoms and the use of wireless communication devices: a prospective cohort study in Swiss adolescents</p>	<p>2017-04</p>	<p>Schoeni A, Roser K, Rösli M</p>	<p>Swiss Tropical and Public Health Institute, University of Basel, Switzerland</p>	<p>Environmental Research, Vol 154, Apr 2017, pp. 275-283</p>
<p>SAR Variation Due to Exposure From a Smartphone Held at Various Positions Near the Torso</p>	<p>2017-04</p>	<p>Takei R, Nagaoka T, Saito K, Watanabe S, Takahashi M</p>	<p>Graduate School of Engineering, Chiba University, Japan; National Institute of Information and Communications Technology, Japan</p>	<p>IEEE Transactions on Electromagnetic Compatibility, Vol 59 (2), Apr 2017, pp. 747-753</p>
<p>ELF exposure from mobile and cordless phones for the epidemiological MOBI-Kids study</p>	<p>2017-04</p>	<p>Calderon C, Ichikawa H, Taki M, Wake K, Addison D, Mee T, Maslanyj M, Kromhout H, Lee AK, Sim MR, Wiert J, Cardis E</p>	<p>Public Health England, Centre for Radiation, Chemical and Environmental Hazards, UK; Department of Electrical Engineering, Graduate School of Engineering, Tokyo Metropolitan University, Japan; Public Health England, Centre for Radiation, Chemical and Environmental Hazards, UK; Institute for Risk Assessment Science, Utrecht University, Netherlands; Radio Technology Research Department, Electronics and Telecommunications Research Institute, Republic of Korea; Department of Epidemiology and Preventive Medicine, Faculty of Medicine, Nursing and Health Science, Monash University, Australia; Telecom ParisTech, France; Barcelona Institute for Global Health, Universitat Pompeu Fabra, Spain</p>	<p>Environmental International, Vol 101, Apr 2017, pp. 59-69</p>
<p>Analysis of mobile phone use among young patients with brain tumors in Japan</p>	<p>2017-03 published online</p>	<p>Sato Y, Kojimahara N, Yamaguchi N</p>	<p>Department of Public Health, School of Medicine, Tokyo Women's Medical University, Japan</p>	<p>Bioelectromagnetics, Vol 38 (5), published online Mar 2017, pp. 349-355</p>
<p>Low SAR planar inverted-F antenna for mobile phone</p>	<p>2017-03 published online</p>	<p>Hossain MI, Faruque MRI, Islam MT</p>	<p>Space Science Center (ANGKASA), Universiti Kebangsaan Malaysia (UKM), Malaysia; Department of Electrical, Electronic, and System Engineering, Universiti Kebangsaan Malaysia (UKM), Malaysia</p>	<p>2016 International Conference on Advances in Electrical, Electronic and System Engineering, published online Mar 2017, pp. 572-576</p>

Analysis of EM absorption reduction using paper based negative indexed metamaterial shielding	2017-03 published online	Alam T, Alam MS, Misran N, Mansor MF, Islam MT	Dept. Of Electrical, Electronic and Systems Engineering, Universiti Kebangsaan Malaysia (UKM), Malaysia	2016 International Conference on Advances in Electrical, Electronic and System Engineering, published online Mar 2017, pp. 563-566
Radiofrequency electromagnetic radiation from cell phone causes defective testicular function in male Wistar rats	2017-03 published online	Oyewopo AO, Olaniyi SK, Oyewopo CI, Jimoh AT	Department of Anatomy, College of Health Sciences, University of Ilorin, Nigeria; Department of Physiology, University of Ilorin, Nigeria; Department of Anesthesia, University of Ilorin Teaching Hospital, University of Ilorin, Nigeria	Andrologia, published online Mar 2017
A study on the effect of prolonged mobile phone use on pure tone audiometry thresholds of medical students of Sikkim	2017-03 published online	Das S, Chakraborty S, Mahanta B	Department of ENT, Sikkim Manipal Institute of Medical Sciences, India	Journal of postgraduate medicine, published online Mar 2017
Effect of 1.8 GHz radiofrequency electromagnetic radiation on novel object associative recognition memory in mice	2017-03 published online	Wang K, Lu JM, Xing ZH, Zhao QR, Hu LQ, Xue L, Zhang J, Mei YA	State Key Laboratory of Medical Neurobiology, School of Life Sciences and Institutes of Brain Science, Fudan University, China; Physics department, East China Normal University, China	Scientific Reports, published online Mar 2017
A Radio Frequency Radiation Exposure System for Rodents Based on Reverberation Chambers	2017-03 published online	Capstick MH, Kuehn S, Berdinas-Torres V, Gong Y, Wilson PF, Ladbury JM, Koepke G, McCormick DL, Gauger J, Melnick RL, Kuster N	IT'IS Foundation, Zurich, Switzerland	IEEE Transactions on Electromagnetic Compatibility, Vol 59 (4), published online Mar 2017, pp. 1041-1052
Characterizing and mapping of exposure to radiofrequency electromagnetic fields (20-3,000 Mhz) in Chengdu, China	2017-03	Zhu G, Gong X, Luo R	School of Electrical Engineering and Information, Sichuan University, China; University Park, the University of Nottingham, UK	Health Physics, Vol 112 (3), Mar 2017, pp. 266-275
A Technical Approach to the Evaluation of Radiofrequency Radiation Emissions from Mobile Telephony Base Stations	2017-03	Buckus R, Strukcinskiene B, Raistenskis J, Stukas R, Sidlauskienė A, Cerkauskiene R, Isopescu DN, Stabryla J, Cretescu I	Faculty of Medicine, Vilnius University, Lithuania; Faculty of Health Sciences, Klaipėda University, Lithuania; Faculty of Civil Engineering, "Gheorghe Asachi" Technical University of Iași, Romania; Faculty of Technical Sciences, University of Warmia and Mazury in Olsztyn, Poland; Faculty of Chemical Engineering and Environmental Protection, "Gheorghe Asachi" Technical University of Iași, Romania	International Journal of Environmental Research and Public Health, Vol 14(3), Mar 2017

Activation of autophagy at cerebral cortex and apoptosis at brainstem are differential responses to 835 MHz RF-EMF exposure	2017-03	Kim JH, Yu DH, Kim HR	Department of Pharmacology, College of Medicine, Dankook University, Korea	Korean Journal of Physiology and Pharmacology, Vol 21 (2), Mar 2017, pp. 179-188
Letter to the editor: Electromagnetic interference of mobile phones: insight into heart rate variability	2017-03	Mert KU, Dural M, Mert GÖ, Iskenderov K	Department of Cardiology, Faculty of Medicine, Eskişehir Osmangazi University, Turkey	Anatolian journal of cardiology, Vol 17 (3), Mar 2017, p. 248
Life-Time Dosimetric Assessment for Mice and Rats Exposed in Reverberation Chambers for the Two-Year NTP Cancer Bioassay Study on Cell Phone Radiation	2017-03	Gong Y, Capstick MH, Kuehn S, Wilson PF, Ladbury JM, Koepke G, McCormick DL, Melnick RL, Kuster N	IT'IS Foundation, Zurich, Switzerland	IEEE Transactions on Electromagnetic Compatibility, Vol pp (99), Mar 2017, pp. 1-11
Radiation measurements at repeated intervals for various locations of SIU campus and calculation of compliance distance from cell tower	2017-03	Jain A, Tupe-Waghmare P	Department of E&TC Engineering, Symbiosis Institute of Technology, Symbiosis International University, India	International Conference on Automatic Control and Dynamic Optimization Techniques, Mar 2017, pp. 804808
An investigation of SAR inside human heart for antenna directivity, surface current variations and effect on antenna frequency in presence of heart	2017-03 published online	Rashid MMU, Sarkar AK, Paul LC, Bouazizi A, Sen R, Podder B	Dept. of Electronic & Telecommunication Engineering, Rajshahi University of Engineering & Tech., Bangladesh	International Conference on Electrical, Computer & Telecommunication Engineering (ICECTE), published online Mar 2017
Evaluation of Mobile Phone and Cordless Phone Use and Glioma Risk Using the Bradford Hill Viewpoints from 1965 on Association or Causation	2017-03	Carlberg M, Hardell L	Department of Oncology, Faculty of Medicine and Health, Örebro University, Sweden	BioMed Research International, Vol 2017, Mar 2017
Effect of Exposure to 900 MHz GSM Mobile Phone Radiofrequency Radiation on Estrogen Receptor Methylation Status in Colon Cells of Male Sprague Dawley Rats	2017-03	Mokarram P, Sheikhi M, Mortazavi SMJ, Saeb S, Shokrpour N	Department of Biochemistry/Department of Radiobiology/Ionizing and Non-ionizing Radiation Protection Research Center/Department of clinical biochemistry, Shiraz University of Medical Sciences, Iran	Journal of Biomedical Physics & Engineering, Vol 7(1), Mar 2017, pp. 79-86
Letter to the editor: Self-reported mobile phone use and semen parameters among men from a fertility clinic	2017-02 published online	Mortazavi SM, Mortazavi S, Paknahad M	Medical Physics Department, School of Medicine, Shiraz University of Medical Sciences, Iran; Oral and Dental Disease Research Center, Oral and Maxillofacial Radiology Department, School of Dentistry, Shiraz University of Medical Sciences, Iran	Reproductive Toxicology, published online Feb 2017

<p>Response to Correspondence by Mortazavi et al. Re: "Self- Reported Mobile Phone Use and Semen Parameters among Men from a Fertility Clinic"</p>	<p>2017-02 published online</p>	<p>Lewis RC, Mmguez-Alarcon L, Meeker JD, Williams PL, Mezei G, Ford JB, Hauser R</p>	<p>Center for Health Sciences, Exponent Inc, USA; Department of Environmental Health, Harvard T.H. Chan School of Public Health, USA; Department of Environmental Health Sciences, University of Michigan School of Public Health, USA; Department of Biostatistics, Harvard T.H. Chan School of Public Health, USA</p>	<p>Reproductive Toxicology, published online Feb 2017</p>
<p>On the sensitivity of the skull thickness for the SAR assessment in the intracranial tissues</p>	<p>2017-02 published online</p>	<p>Fernandez-Rodriguez CE, Almeida de Salles AA</p>	<p>Federal Institute of Education, Science and Technology of Rio Grande do Sul, Brazil; Electrical Engineering Department, Federal University of Rio Grande do Sul, Brazil</p>	<p>IEEE MTT-S Latin America Microwave Conference (LAMC-2016), published online Feb 2017</p>
<p>Can cell phone electromagnetic radiation harm human health?</p>	<p>2017-02 published online</p>	<p>Thajjiam C, Woradit K, Leela N, Kaewwibool P</p>	<p>Department of Electrical Engineering, Faculty of Engineering, Srinakharinwirot University, Thailand</p>	<p>IEEE 9th Biomedical Engineering International Conference (BMEiCON), published online Feb 2017</p>
<p>A comparative study of the PIFA and printed monopole antenna EM absorption</p>	<p>2017-02</p>	<p>Hossain MI, Iqbal Faruque MR, Islam MT</p>	<p>Space Science Center, Universiti Kebangsaan Malaysia, Malaysia; Department of Electrical, Electronic and Systems Engineering, Universiti Kebangsaan Malaysia, Malaysia</p>	<p>Biomedical Engineering, Vol 62 (1), Feb 2017, pp. 13-21</p>
<p>When theory and observation collide: Can non-ionizing radiation cause cancer?</p>	<p>2017-02</p>	<p>Havas M</p>	<p>Trent School of the Environment, Trent University, Canada</p>	<p>Environmental Pollution, Vol 221, Feb 2017, pp. 501-505</p>
<p>Effect of electromagnetic waves from mobile phone on immune status of male rats: possible protective role of vitamin D</p>	<p>2017-02</p>	<p>El-Gohary OA, Said MA</p>	<p>Department of Medical Physiology, Faculty of Medicine, Benha University, Egypt</p>	<p>Canadian Journal of Physiology and Pharmacology, Vol 95 (2), Feb 2017, pp. 152-156</p>
<p>Semi-quantitative proteomics of mammalian cells upon short-term exposure to non-ionizing electromagnetic fields</p>	<p>2017-02</p>	<p>Kuzniar A, Laffeber C, Eppink B, Bezstarosti K, Dekkers D, Woelders H, Zwamborn AP, Demmers J, Lebbink JH, Kanaar R</p>	<p>Department of Molecular Genetics, Cancer Genomics Netherlands, Erasmus University Medical Center, Netherlands; Netherlands eScience Center, Netherlands; Proteomics Center, Erasmus University Medical Center, Netherlands; Department of Radiation Oncology, Erasmus University Medical Center, Netherlands</p>	<p>PLOS ONE, Vol 12(2), Feb 2017</p>
<p>Letter to the editor: Association between electromagnetic field exposure and abortion in pregnant women living in Tehran</p>	<p>2017-02</p>	<p>Mortazavi SMJ, Mortazavi SA, Paknahad M</p>	<p>Medical Physics Department/Ionizing and Non-ionizing Radiation Protection Research Center/Dentomaxillofacial Radiology Department, Shiraz University of Medical Sciences, Iran</p>	<p>International Journal of Reproductive BioMedicine, Vol 15 (2), Feb 2017, pp. 115-116</p>

				Department of Environmental Health, Public Health Service of Amsterdam, Netherlands; Department of General Practice and Elderly Care, EMGO+ Institute for Health and Care Research, VU University Medical Center, Netherlands; Institute for Risk Assessment Sciences, Utrecht University, Netherlands; Institute for Risk Assessment Sciences, Utrecht University, Netherlands; IT'IS Foundation, Zurich, Switzerland	
Effects of personalised exposure on self-rated electromagnetic hypersensitivity and sensibility -A double-blind randomised controlled trial	2017-02		van Moorselaar I, Slotje P, Heller P, van Strien R, Kromhout H, Murbach M, Kuster N, Vermeulen R, Huss A	Environment International, Vol 99, Feb 2017, pp. 255262	
Mobile phone use and risk for intracranial tumors and salivary gland tumors -A meta-analysis	2017-02		Bortkiewicz A, Gadzicka E, Szymczak W	International Journal of Occupational Medicine and Environmental Health, Vol 30(1), Feb 2017, pp. 27-43	
Letter to the editor: Effects of exposure to 2100MHz GSM-like radiofrequency electromagnetic field on auditory system of rats	2017-01 online	published	Mortazavi SM, Mortazavi SA, Paknahad M	Shiraz University of Medical Sciences, School of Medicine, Medical Physics Department, Iran; Shiraz University of Medical Sciences, School of Dentistry, Oral and Maxillofacial Radiology Department, Iran	Brazilian Journal of Otorhinolaryngology, published online Jan 2017
Preliminary estimates of electromagnetic field exposures due to advanced vehicle technologies	2017-01 online	published	Ruddle AR	Future Transport Technologies Department , HORIBA MIRA Limited, UK	2016 Loughborough Antennas & Propagation Conference (LAPC), published online Jan 2017
Monitoring of RF/Microwave field strength at schools in a pilot district in Samsun/Turkey	2017-01 online	published	Kurnaz C, Engiz BK, Bozkurt MC	Department of Electrical and Electronics Engineering, Ondokuz Mayıs University, Turkey	6th Mediterranean Microwave Symposium (MMS), published online Jan 2017
Where's Your Phone? A Survey of Where Women Aged 15-40 Carry Their Smartphone and Related Risk Perception: A Survey and Pilot Study	2017-01		Redmayne M	School of Public Health and Preventive Medicine, Monash University, Australia	PLOS ONE, Vol 12(1), Jan 2017
Exposure to Radiofrequency Electromagnetic Fields From Wi-Fi in Australian Schools	2017-01		Karipidis K, Henderson S, Wijayasinghe D, Tjong L, Tinker R	Australian Radiation Protection and Nuclear Safety Agency, Australia	Radiation protection dosimetry, Jan 2017, pp. 1-8
Comment on "Changing the Conversation on Cell Phone RF Radiation Carcinogenesis"	2017-01		Petersen R		IEEE Microwave Magazine, Vol 18(1), Jan-Feb 2017, pp. 138
Long-term exposure to 835 MHz RF-EMF induces hyperactivity, autophagy and demyelination in the cortical neurons of mice	2017-01		Kim JH, Yu DH, Huh YH, Lee EH, Kim HG, Kim HR	Department of Pharmacology, College of Medicine, Dankook University, Republic of Korea; Center for Electron Microscopy Research, Korea Basic Science Institute, Republic of Korea	Scientific Reports, 7:41129, Jan 2017
Quantitative changes in testicular structure and function in rat exposed to mobile phone radiation	2017-01		Qetkin M, Kizilkan N, Demirel C, Bozdaq Z, Erkilic S, Erbaqci H	Faculty of Medicine, Department of Anatomy, Gaziantep University, Turkey	Andrologia, Jan 2017
Acute effects of mobile phone radiations on subtle energy levels of teenagers using electrophotonic imaging technique: A randomized controlled study	2017-01		Bhargav H, Srinivasan TM, Bista S, Moovenan A, Suresh V, Hankey A, Nagendra HR	Division of Yoga and Life Sciences, S-VYASA Yoga University, India	International journal of yoga, Vol 10 (1), Jan-Apr 2017, pp. 16-23

<p>Evaluation of the Effect of Radiofrequency Radiation Emitted From Wi-Fi Router and Mobile Phone Simulator on the Antibacterial Susceptibility of Pathogenic Bacteria <i>Listeria monocytogenes</i> and <i>Escherichia coli</i></p>	<p>2017-01</p>	<p>Taheri M, Mortazavi SM, Moradi M, Mansouri S, Hatam GR, Nouri F</p>	<p>Department of Microbiology, School of Medicine, Kerman University of Medical Sciences, Iran; Ionizing and Non-ionizing Radiation Protection Research Center (INIRPRC), Shiraz University of Medical Sciences, Iran; Basic Sciences, School of Advanced Medical Sciences and Technologies, Shiraz University of Medical Sciences, Iran; Department of Pharmaceutical Biotechnology and Pharmaceutical Sciences Research Center, School of Pharmacy, Shiraz University of Medical Scienc, Iran</p>	<p>Dose response, Vol 15 (1), Jan 2017</p>

Does cell phone use increase the chances of parotid gland tumor development? A systematic review and meta-analysis	2016-12 published online	de Siqueira EC, de Souza FT, Gomez RS, Gomes CC, de Souza RP	Department of Pathology, Biological Sciences Institute, Universidade Federal de Minas Gerais, Brazil; Department of Oral Surgery and Pathology, School of Dentistry, Universidade Federal de Minas Gerais-UFMG, Brazil; Grupo de Pesquisa em Bioestatística e Epidemiologia Molecular, Department of General Biology, Biological Sciences Institute, Universidade Federal de Minas Gerais- UFMG, Brazil	Journal of Oral Pathology & Medicine, published online Dec 2016
Absorption rate analysis of cellular phone radiation on the human head	2016-12	Imran A, Islam MR, Hassan MN, Shibli NH, Ahmad S, Ali MT	Department of Electrical and Electronics Engineering, American International University-Bangladesh, Bangladesh	5th International Conference on Informatics, Electronics and Vision (ICIEV), Dec 2016
Monitoring and assessment of electromagnetic pollution in Samsun (Turkey)	2016-12	Kurnaz C, Engiz BK	Department of Electrical and Electronics Engineering, Ondokuz Mayıs University, Turkey	39th International Conference on Telecommunications and Signal Processing (TSP), Dec 2016, pp. 219-222
Assessment of General Public Exposure to LTE signals compared to other Cellular Networks Present in Thessaloniki, Greece	2016-12	Gkonis F, Boursianis A, Samaras T	Radiocommunications Laboratory, Department of Physics, Aristotle University of Thessaloniki, Greece; Department of Physics, University of Malta, Malta	Radiation Protection Dosimetry, Dec 2016, pp. 1-6
Major influences in households and business spaces - Wi-Fi, telecommunication masts outputs and electrical pollution	2016-12	Markho F, Tuleasca I	School of Science, Technology and Engineering Open Polytechnic of New Zealand, New Zealand	International Conference and Exposition on Electrical and Power Engineering (EPE 2016), Dec 2016, pp. 815-822
TLM numerical thermal dosimetry in realistic environment	2016-12	Makhlouf O, Cueille M, Dubard JL	University Nice Sophia-Antipolis, France	IEEE Radio and Antenna Days of the Indian Ocean (RADIO), Dec 2016
Effect of Low Level Subchronic Microwave Radiation on Rat Brain	2016-12	Deshmukh PS, Megha K, Nasare N, Banerjee BD, Ahmed RS, Abegaonkar MP, Tripathi AK, Mediratta PK	Environmental Biochemistry and Molecular Biology Laboratory, Department of Biochemistry, University College of Medical Sciences & G.T.B. Hospital (University of Delhi), India; Centre for Applied Research in Electronics (CARE), Indian Institute of Technology, India; Department of Pharmacology, University College of Medical Sciences & G.T.B. Hospital (University of Delhi), India	Biomedical and Environmental Sciences, Vol 29 (12), Dec 2016, pp. 858-867
Evaluation of the real-life exposure due to mobile phones in an indoor environment	2016-12	Monebhurrun V, Rojalkar A	EXPOSE/PIEM/GEEPS CentraleSupélec, France	IEEE Radio and Antenna Days of the Indian Ocean (RADIO), Dec 2016
EM exposure study on an inhomogeneous human model considering different hand positions	2016-12	Jeladze V, Tsverava M, Nozadze T, Tabatadze V, Prishvin M, Zaridze R	Laboratory of Applied Electrodynamics and Radio-engineering, Iv. Javakishvili Tbilisi State University, Georgia	2016 XX1st International Seminar/Workshop on Direct and Inverse Problems of Electromagnetic and Acoustic Wave Theory (DIPED), Dec 2016, pp. 9-12

Study on the influence of wireless communication technology on infusion pumps	2016-12	Luca C, Andri'oi D, Corciova C, Ciorap R	Faculty of Medical Bioengineering, University of Medicine and Pharmacy "Grigore T. Popa", Romania	IEEE International Conference and Exposition on Electrical and Power Engineering (EPE), Dec 2016, pp. 403-407
An overview of RF-EMF monitoring systems and associated monitoring data	2016-12	Lunca E, Salceanu A	Department of Electrical Measurements and Materials, Faculty of Electrical Engineering, Technical University of Iasi, Romania	IEEE International Conference and Exposition on Electrical and Power Engineering (EPE), Dec 2016, pp. 418-421
RF exposure survey of children and adults: First results from Slovenia	2016-12	Gajsek P, Struchen B, Valic B	Institute of Nonionizing Radiation (INIS), Romania; Swiss Tropical and Public Health Institute, Switzerland	IEEE Radio and Antenna Days of the Indian Ocean (RADIO), Dec 2016
Siebter Bericht der Bundesregierung über die Forschungsergebnisse in Bezug auf die Emissionsminderungsmöglichkeiten der gesamten Mobilfunktechnologie und in Bezug auf gesundheitliche Auswirkungen	2016-12	Deutscher Bundestag	Bundesministerium für Umwelt, Naturschutz und Reaktorsicherheit	Verhandlungen des Deutschen Bundestages / Drucksachen 2016; 18:10600, published Dec 2016
The Effects of Exposure to Low Frequency Electromagnetic Fields in the Treatment of Migraine Headache: A Cohort Study	2016-12	Mohammadianinejad SE, Babaei M, Nazari P	Department of Neurology, Ahvaz Jundishapur University of Medical Sciences, Iran	Electronic Physician, Vol 8 (12), Dec 2016, pp. 34453449
Meta-analysis of association between mobile phone use and glioma risk	2016-12	Wang Y, Guo X	Department of Neurology, Huaihe Hospital, Henan University, China	Journal of Cancer Research and Therapeutics, Vol 12 (8), Dec 2016, pp. 298-300
A follow-up study of the association between mobile phone use and symptoms of ill health	2016-12 published online	Cho YM, Lim HJ, Jang H, Kim K, Choi JW, Shin C, Lee SK, Kwon JH, Kim N	Institute for Life and Environment Technology, Smartive Corporation, Korea; Institute for Occupational and Environmental Health, Korea University, Korea; Institute of Human Genome Study, Korea University Ansan Hospital, Korea; EM Environment Research Team, Electronics and Telecommunications Research Institute, Korea; Division of Information and Communication Engineering, Chungbuk National University, Korea	Environmental Health and Toxicology, Vol 32, published online Dec 2016, pp. 1-8
Variographic analysis of public exposure to electromagnetic radiation due to cellular base stations	2016-12	Lemaire T, Wiart J, De Doncker P	OPERA Department, Universite Libre de Bruxelles, Belgium; Telecom ParisTech, France	Bioelectromagnetics, Vol 37 (8), Dec 2016, pp. 557-562
Long-term electromagnetic field measurement and assessment for a shopping mall	2016-11 published online	Engiz BK, Kurnaz C	Ondokuz Mayıs University, Department of Electrical and Electronics Engineering, Turkey	Radiation Protection Dosimetry, published online Nov 2016, pp. 1-9
Promoting fluoroscopic personal radiation protection equipment: unfamiliarity, facts and fears	2016-11 published online	Balter S	Columbia University Medical Center, USA	Radiation Protection Dosimetry, Vol 173 (1-3), published online Nov 2016, pp. 180-184

<p>The Intracranial Distribution of Gliomas in Relation to Exposure From Mobile Phones: Analyses From the INTERPHONE Study</p>	<p>2016-11</p>	<p>Grell K, Frederiksen K, Schüz J, Cardis E, Armstrong B, Siemiatycki J, Krewski DR, McBride ML, Johansen C, Auvinen A, Hours M, Blettner M, Sadetzki S, Lagorio S, Yamaguchi N, Woodward A, Tynes T, Feychting M, Fleming SJ, Swerdlow AJ, Andersen PK</p>	<p>Department of Public Health, Faculty of Health and Medical Sciences, University of Copenhagen, Denmark</p>	<p>American Journal of Epidemiology, Vol184 (11), Nov 2016, pp. 818-828</p>
<p>Pernicious effects of long-term, continuous 900-MHz electromagnetic field throughout adolescence on hippocampus morphology, biochemistry and pyramidal neuron numbers in 60- day-old Sprague Dawley male rats</p>	<p>2016-11</p>	<p>Kerimoglu G, Hanci H, Bas O, Aslan A, Erol HS, Turgut A, Kaya H, Cankaya S, Sönmez OF, Odaci E</p>	<p>Department of Histology and Embryology, Faculty of Medicine, Karadeniz Technical University, Turkey; Department of Anatomy, Faculty of Medicine, Ordu University, Turkey; Department of Physiology, Faculty of Medicine, Ordu University, Turkey; Department of Biochemistry, Faculty of Veterinary, Atatürk University, Turkey; Department of Electrical and Electronic Engineering, Faculty of Engineering, Karadeniz Technical University, Turkey; Department of Biostatistics and Medical Informatics, Faculty of Medicine, Ordu University, Turkey; Department of Neurosurgery, Tepecik Education and Research Hospital, Turkey; Department of Histology and Embryology, Faculty of Medicine, Karadeniz Technical University, Turkey</p>	<p>Journal of Chemical Neuroanatomy, Vol 77, Nov 2016, pp. 169-175</p>

<p>Assessment of personal exposure from radiofrequency-electromagnetic fields in Australia and Belgium using on-body calibrated exposimeters</p>	<p>2016-11</p>	<p>Bhatt CR, Thielens A, Billah B, Redmayne M, Abramson MJ, Sim MR, Vermeulen R, Martens L, Joseph W, Benke G</p>	<p>Centre for Population Health Research on Electromagnetic Energy (PRESEE), School of Public Health and Preventive Medicine, Monash University, Australia; Department of Information Technology, Ghent University/iMinds, Belgium; Department of Epidemiology and Preventive Medicine, School of Public Health and Preventive Medicine, Monash University, Australia; Institute for Risk Assessment Sciences (IRAS), Division Environmental Epidemiology, Utrecht University, Netherlands</p>	<p>Environmental Research, Vol 151, Nov 2016, pp. 547563</p>
<p>Mobile phone use, behavioural problems and concentration capacity in adolescents: A prospective study</p>	<p>2016-11</p>	<p>Roser K, Schoeni A, Rösli M</p>	<p>Swiss Tropical and Public Health Institute, University of Basel, Switzerland</p>	<p>International Journal of Hygiene and Environmental Health, Vol 219 (8), Nov 2016, pp. 759-769</p>
<p>Mapping of radio frequency electromagnetic field exposure levels in outdoor environment and comparing with reference levels for general public health</p>	<p>2016-11</p>	<p>Cansiz M, Abbasov T, Kurt MB, Celik AR</p>	<p>Department of Electrical and Electronics Engineering, Dicle University, Turkey; Department of Electrical and Electronics Engineering, inönü University, Turkey</p>	<p>Journal of Exposure Science and Environmental Epidemiology, Nov 2016</p>
<p>Mobile phone signal exposure triggers a hormesis-like effect in Atm^{+/+} and Atm^{-/-} mouse embryonic fibroblasts</p>	<p>2016-11</p>	<p>Sun C, Wei X, Fei Y, Su L, Zhao X, Chen G, Xu Z</p>	<p>Bioelectromagnetics Laboratory, Zhejiang University School of Medicine, China; Collaborative Innovation Center for Diagnosis and Treatment of Infectious Diseases, Zhejiang University, China; Institute of Environmental Health, Zhejiang University School of Public Health, China</p>	<p>Scientific Reports, 6:34723, Nov 2016</p>

<p>Multiple assessment methods of prenatal exposure to radio frequency radiation from telecommunication in the Mothers and Children's Environmental Health (MOCEH) study</p>	<p>2016-11</p>	<p>Choi KH, Ha M, Burm E, Ha EH, Park H, Kim Y, Lee AK, Kwon JH, Choi HD, Kim N</p>	<p>Hallym University, Chunchun, Korea (Hallym Research Institute of Clinical Epidemiology); Dankook University, Cheonan, Korea (College of Medicine, Department of Preventive Medicine); Moonkyung College, Moonkyung, Korea (Department of Nursing); Ewha Womans University, Seoul, Korea (College of Medicine, Department of Preventive Medicine); Electronics and Telecommunications Research Institute, Korea; Chungbuk National University, Cheongju, Korea (College of Electrical and Computer Engineering, School of Information and Communication Engineering)</p>	<p>International Journal of Occupational Medicine and Environmental Health, Vol 29(6), Nov 2016, pp. 959-972</p>
<p>GSM-like radiofrequency exposure induces apoptosis via caspase-dependent pathway in infant rabbits</p>	<p>2016-11</p>	<p>Meral O, Ozgur E, Kismali G, Guler G, Alpay M, Sel T, Seyhan N</p>	<p>Department of Biochemistry, Faculty of Veterinary Medicine, Ankara University, Turkey</p>	<p>Bratislava Medical Journal Vol 117 (11), Nov 2016, pp. 672-676</p>
<p>Environmental Exposure and Risk of Childhood Leukemia: An Overview</p>	<p>2016-11</p>	<p>Schüz J, Erdmann F</p>	<p>International Agency for Research on Cancer, Section of Environment and Radiation, France; Danish Cancer Society Research Center, Unit of Survivorship, Denmark</p>	<p>Archives of Medical Research, Vol 47 (8), Nov 2016, pp. 607-614</p>
<p>Age-dependent acute interference with stem and progenitor cell proliferation in the hippocampus after exposure to 1800 MHz electromagnetic radiation</p>	<p>2016-10 published online</p>	<p>Xu F, Bai Q, Zhou K, Ma L, Duan J, Zhuang F, Xie C, Li W, Zou P, Zhu C</p>	<p>Department of Neonatology, The Third Affiliated Hospital of Zhengzhou University, China; Henan Key Laboratory of Child Brain Injury, Zhengzhou University, China; Department of Pediatrics, Zhengzhou Children's Hospital, China; Center for Brain Repair and Rehabilitation, Institute of Neuroscience and Physiology, University of Gothenburg, Sweden; Department of Radio Physics, College of Information Engineering, Zhengzhou University, China; Department of Pediatrics, Xuchang Central Hospital, China</p>	<p>Electromagnetic Biology and Medicine, published online Oct 2016</p>

<p>A cross-sectional study of the association between mobile phone use and symptoms of ill health</p>	<p>2016-10 published online</p>	<p>Cho YM, Lim HJ, Jang H, Kim K, Choi JW, Shin C, Lee SK, Kwon JH, Kim N</p>	<p>Institute for Life and Environment Technology, Smartive Corporation, Korea; Institute for Occupational and Environmental Health, Korea University, Korea; Institute of Human Genome Study, Korea University Ansan Hospital, Korea; Division of Information and Communication Engineering, Chungbuk National University, Korea</p>	<p>Environmental Health and Toxicology, Vol 31, published online Oct 2016</p>
<p>Effects of exposure to 2100MHz GSM-like radiofrequency electromagnetic field on auditory system of rats</p>	<p>2016-10 published online</p>	<p>Celiker M, Ozgur A, Tumkaya L, Terzi S, Yilmaz M, Kalkan Y, Erdogan E</p>	<p>Recep Tayyip Erdogan University Research and Training Hospital, Department of Otorhinolaryngology, Turkey; Recep Tayyip Erdogan University, Medical Faculty, Department of Histology and Embryology, Turkey; Selguk University, Me dica I Faculty, Department of Histology and Embryology, Turkey</p>	<p>Brazilian Journal of Otorhinolaryngology, published online Oct 2016</p>
<p>Radiofrequency radiation (900 MHz)-induced DNA damage and cell cycle arrest in testicular germ cells in swiss albino mice</p>	<p>2016-10 published online</p>	<p>Pandey N, Giri S, Das S, Upadhaya P</p>	<p>Molecular Cytogenetic Laboratory, Department of Life Science and Bioinformatics, Assam University, India</p>	<p>Toxicology and Industrial Health, Vol 33 (4), published online Oct 2016, pp. 373-384</p>
<p>Use of portable exposimeters to monitor radiofrequency electromagnetic field exposure in the everyday environment</p>	<p>2016-10</p>	<p>Sagar S, Struchen B, Finta V, Eeftens M, Röösli M</p>	<p>Swiss Tropical and Public Health Institute, Department of Epidemiology and Public Health, Switzerland; Eötvös Lorand University, Faculty of Science, Center of Environmental Studies Budapest; Swiss Tropical and Public Health Institute, Department of Epidemiology and Public Health, Switzerland</p>	<p>Environmental Research, Vol 150, Oct 2016, pp. 289-298</p>

Outdoor and indoor sources of residential radiofrequency electromagnetic fields, personal cell phone and cordless phone use, and cognitive function in 5-6 years old children	2016-10	Guxens M, Vermeulen R, van Eijsden M, Beekhuizen J, Vrijkotte TG, van Strien RT, Kromhout H, Huss A	Institute for Risk Assessment Sciences, Division of Environmental Epidemiology, Utrecht University, Netherlands; Institute for Risk Assessment Sciences, Division of Environmental Epidemiology, Utrecht University, Netherlands; Department of Epidemiology and Health Promotion, Public Health Service of Amsterdam, Netherlands; Department of Public Health, Academic Medical Center, University of Amsterdam, Netherlands; Department of Environmental Health, Public Health Service of Amsterdam, Netherlands	Environmental Research 2016, Vol 150, Oct 2016, pp. 364-374
Acute Exposure to Terrestrial Trunked Radio (TETRA) has effects on the electroencephalogram and electrocardiogram, consistent with vagal nerve stimulation	2016-10	Burgess AP, Fouquet NC, Seri S, Hawken MB, Heard A, Neasham D, Little MP, Elliott P	Aston Brain Centre, School of Life & Health Sciences, Aston University, UK; Research Institute for Sport & ExMRC- PHE Centre for Environment and Health, School of Public Health, Imperial College London, UK; Radiation Epidemiology Branch, Division of Cancer Epidemiology and Genetics, National Cancer Institute, USA	Environmental Research, Vol 150, Oct 2016, pp. 461-469
Letter to the editor: Has the incidence of brain cancer risen in Australia since the introduction of mobile phones 29 years ago?	2016-10	Morgan LL, Miller AB, Davis DL	Environmental Health Trust, USA; Dalla Lana School of Public Health, University of Toronto, Canada; Environmental Health Trust, USA	Cancer Epidemiology, Vol 44, Oct 2016, pp. 112-113
Letter to the editor: Mobile phone use and the brain cancer incidence rate in Australia	2016-10	Bandara P		Cancer Epidemiology, Vol 44, Oct 2016, pp. 110-111
Letter to the editor: Primary brain tumors and mobile cell phone usage	2016-10	Wojcik DP	Northland Environmental Health Clinic, New Zealand	Cancer Epidemiology, Vol 44, Oct 2016, pp. 123-124
A New High-Resolution Electromagnetic Human Head Model : A useful resource for a new specific-absorption-rate assessment model	2016-10	Yu W, Zhao L, Ye Q, Chen G, Wu KL	Jiangsu Normal University, China	IEEE Antennas and Propagation Magazine, Vol 58(5), Oct 2016, pp. 32-42
Dental Implants and Mobile Phone Use: How implant presence and position affect antenna parameters, specific absorption rate, and current density	2016-10	Safari M, Abdolali A	Iran university of science and technology, Iran	IEEE Antennas Propagation Magazine Vol 58(5), Oct 2016, pp. 43-51
Primary Salvage Survey of the Interference of Radiowaves Emitted by Smartphones on Medical Equipment	2016-10	Takao H, Yeh YC, Arita H, Obatake T, Sakano T, Kurihara M, Matsuki A, Ishibashi T, Murayama Y	Department of Innovation for Medical Information Technology, Jikei University School of Medicine, Japan	Health Physics, Vol 111(4), Oct 2016, pp. 381-392
Response from the authors to correspondence related to 'Has the incidence of brain cancer risen in Australia since the introduction of mobile phones 29 years ago?'	2016-10	Chapman S, Azizi L, Luo Q, Sitas F	School of Public Health, University of Sydney, Australia	Cancer Epidemiology, Vol 44, Oct 2016, pp. 138-140

Microwaves and Alzheimer's disease	2016-10	Zhang X, Huang WJ, Chen WW	Department of Neurology, Xuzhou Central Hospital, China	Experimental and Therapeutic Medicine, Vol 12 (4), Oct 2016, pp. 1969-1972
Environmental risk factors for dementia: a systematic review	2016-10	Killin LO, Starr JM, Shiue J, Russ TC	Alzheimer Scotland Dementia Research Centre & Centre for Cognitive Ageing & Cognitive Epidemiology & Division of Psychiatry, Centre for Clinical Brain Sciences, University of Edinburgh, University of Edinburgh, UK; Scottish Dementia Clinical Research Network, UK; Faculty of Health and Life Sciences, Northumbria University, UK	BMC Geriatrics Vol 16 (175), Oct 2016
Improving Precautionary Communication in the EMF Field? Effects of Making Messages Consistent and Explaining the Effectiveness of Precautions	2016-10	Boehmert C, Wiedemann P, Croft R	Department of Science Communication, Karlsruhe Institute of Technology, Germany; Australian Centre for Electromagnetic Bioeffects Research, University of Wollongong, Australia; School of Psychology, University of Wollongong; Australia; Australian Centre for Electromagnetic Bioeffects Research, University of Wollongong, Australia; Illawarra Health and Medical Research Institute, University of Wollongong, Australia	International Journal of Environmental Research and Public Health, Vol 13 (10), Oct 2016
Radiofrequency Exposure Amongst Employees of Mobile Network Operators and Broadcasters	2016-10	Litchfield I, van Tongeren M, Sorahan T	Institute of Applied Health Research, College of Medical and Dental Sciences, University of Birmingham, UK; Institute of Occupational Medicine, Research Avenue North, UK; Institute of Applied Health Research, College of Medical and Dental Sciences, University of Birmingham, UK	Radiation Protection Dosimetry, Oct 2016, pp. 1-8
Radiofrequency-electromagnetic field exposures in kindergarten children	2016-10	Bhatt CR, Redmayne M, Billah B, Abramson MJ, Benke G	Centre for Population Health Research on Electromagnetic Energy (PRESEE), School of Public Health and Preventive Medicine, Monash University, Australia; Department of Epidemiology and Preventive Medicine, School of Public Health and Preventive Medicine, Monash University, Australia	Journal of Exposure Science and Environmental Epidemiology, Oct 2016

Analyzing Exposures to Electromagnetic Fields in an Intensive Care Unit	2016-10	Gökmen N, Erdem S, Toker KA, Öcmen E, Gökmen BI, Özkurt A	Department of Anaesthesiology and Reanimation, Dokuz Eylül University School of Medicine, Turkey; Dokuz Eylül University School of Business, Turkey; Department of Software Engineering, izmir University School of Engineering, Turkey; Dokuz Eylül University Graduate School of Natural and Applied Sciences Biomedical Engineering Master Science Student, Turkey; Department of Electrical and Electronic Engineering, Dokuz Eylül University, Turkey	Turkish Journal of the Anaesthesiology and Reanimation, Vol 44 (5), Oct 2016, pp. 236-240
Changing the Conversation on Cell Phone RF Radiation Carcinogenesis	2016-10	Lin JC	University of Illinois at Chicago, USA	IEEE Microwave Magazine, Vol 17 (10), Oct 2016, pp. 2123
No adverse effects detected for simultaneous whole-body exposure to multiple-frequency radiofrequency electromagnetic fields for rats in the intrauterine and pre- and post-weaning periods	2016-09 published online	Shirai T, Wang J, Kawabe M, Wake K, Watanabe SI, Takahashi S, Fujiwara O	Nagoya City Rehabilitation Center, Yatomi-cho, Mizuho-ku, Japan; Graduate School of Medical Sciences, Nagoya City University, Japan; Graduate School of Engineering, Nagoya Institute of Technology, Japan; DIMS Institute of Medical Science; National Institute of Information and Communications Technology, Japan	Journal of Radiation Research, Vol 58 (1), published online Sep 2016, pp. 48-58
Lessons learnt on biases and uncertainties in personal exposure measurement surveys of radiofrequency electromagnetic fields with exposimeters	2016-09	Bolte JF	Centre for Sustainability, Environment and Health, National Institute for Public Health and the Environment, Netherlands	Environment international, Vol 94, Sep 2016, pp. 724735
EUROPAEM EMF Guideline 2016 for the prevention, diagnosis and treatment of EMF-related health problems and illnesses	2016-09	Belyaev I, Dean A, Eger H, Hubmann G, Jandrisovits R, Kern M, Kundi M, Moshammer H, Lercher P, Muller K, Oberfeld G, Ohnsorge P, Pelzmann P, Scheingraber C, Thill R	European Academy for Environmental Medicine; Cancer Research Institute BMC, Slovak Academy of Science, Slovakia; Center for Holistic Medicine "MEDICUS", Austria	Reviews on Environmental Health Vol 31(3), Sep 2016, pp. 363-397
Effect of electromagnetic wave on bone healing in fixed and unfixed conditions	2016-09	Onger ME, Gocer H, Cirakli A, Buyukceran I, Kilic M, Kaplan S	Department of Histology and Embryology, Department of Orthopedics and Traumatology, Faculty of Medicine, Ondokuz Mayıs University, Turkey; Orthopedic and Traumatology Clinic, Kayseri Research and Training Hospital, Kayseri, Turkey	Journal of Craniofacial Surgery, Vol 27(6), Sep 2016. pp. 1606-1608
Design considerations to calculate SAR in multiband MIMO antenna for mobile handsets	2016-09 published online	Kumar GP, Agarwal N, Kranthi P, Babu SS	TKM college of Engg, India	IEEE WiSPNET 2016 conference, published online Sep 2016

Lessons and perspectives from a 25-year bioelectromagnetics research program	2016-09	Wood AW, Lajevardipour A, McIntosh RL	School of Health Sciences, Swinburne University of Technology, Australia	International Journal of Environmental Research and Public Health, Vol 13 (10), Sep 2016
Bioelectromagnetics Research within an Australian Context: The Australian Centre for Electromagnetic Bioeffects Research (ACEBR)	2016-09	Loughran SP, Al Hossain MS, Bentvelzen A, Elwood M, Finnie J, Horvat J, Iskra S, Ivanova EP, Manavis J, Mudiyansele CK, Lajevardipour A, Martinac B, McIntosh R, McKenzie R, Mustapic M, Nakayama Y, Pirogova E, Rashid MH, Taylor NA, Todorova N, Wiedemann PM, Vink R, Wood A, Yarovsky I, Croft RJ	Australian Centre for Electromagnetic Bioeffects Research, Australia; School of Psychology and Illawarra Health & Medical Research Institute, University of Wollongong, Australia; School of Engineering, RMIT University, Australia; School of Population Health, University of Auckland, Australia; School of Health Sciences, Swinburne University of Technology, Australia; Victor Chang Cardiac Research Institute, Australia; School of Engineering, RMIT University, Australia; School of Psychology and Illawarra Health & Medical Research Institute, University of Wollongong, Australia	International Journal of Environmental Research and Public Health, Vol 13 (10), Sep 2016
Effects of electromagnetic fields emitted by GSM phones on working memory: a meta-analysis	2016-09 published online	Zubko O, Gould RL, Gay HC, Cox HJ, Coulson MC, Howard RJ	Department of Old Age Psychiatry, King's College London, UK; Department of Psychology, Middlesex University, UK; Division of Psychiatry, University College London, UK	International Journal of Geriatric Psychiatry, Vol 32 (2), published online Sep 2016, pp. 125-135
Lasting hepatotoxic effects of prenatal mobile phone exposure	2016-08 published online	Yilmaz A, Tumkaya L, Akyildiz KA, Kalkan Y, Bodur AF, Sargin F, Efe H, Uydu HA, Yazici ZA	Department of Biochemistry, Department of Histology & Embryology, Department of Nutrition and Dietetics, Gumushane University, Turkey; Department of Microbiology, Recep Tayyip Erdogan University Medical School, Turkey	The Journal of Maternal-Fetal & Neonatal Medicine, Vol 30 (11), published online Aug 2016, pp. 1355-1359
Design of PIFA with metamaterials for body-SAR reduction in wearable applications	2016-08 published online	Il Kwak S, Sim DU, Kwon JH, Yoon YJ	Yonsei University, Korea	IEEE Transactions on Electromagnetic Compatibility, Vol 59 (1), published online Aug 2016, pp. 297-300
Dual-Band Dual-Mode Textile Antenna on PDMS Substrate for Body-Centric Communications	2016-08 published online	Simorangkir RBVB, Yang Y, Matekovits L, Esselle K	Department of Engineering, Macquarie University, Australia	IEEE Antennas and Wireless Propagation Letters, Vol 16, published online Aug 2016, pp. 677-680

Pulse modulated radiofrequency exposure influences cognitive performance	2016-08	Verrender A, Loughran SP, Dalecki A, McKenzie R, Croft RJ	Australian Centre for Electromagnetic Bioeffects Research, Australia; Centre for Health Initiatives, School of Psychology, Illawarra Health & Medical Research Institute, University of Wollongong, Australia; Population Health Research on Electromagnetic Energy, Wollongong, Australia; Australian Mobile Telecommunications Association, Melbourne, Australia	International Journal of Radiation Biology, Vol 92(10), Aug 2016, pp. 603-610
Exposure to RF EMF from Array Antennas in 5G Mobile Communication Equipment	2016-08	Thors B, Colombi D, Ying Z, Bolin T, Tornevik C	Ericsson Research, Sweden; Network Technology Laboratory, Sony Mobile Communications, Sweden	IEEE Access, Vol 4, Aug 2016, pp. 7469-7478
Effects on auditory function of chronic exposure to electromagnetic fields from mobile phones	2016-08	Bhagat S, Varshney S, Bist SS, Goel D, Mishra S, Jha VK	Department of ENT, Government Medical	CEar, Nose & Throat Journal, Vol 95, Aug 2016, pp. 18-22
Effects of Long Term Exposure of 900-1800 MHz Radiation Emitted from 2G Mobile Phone on Mice Hippocampus- A Histomorphometric Study	2016-08	Mugunthan N, Shanmugasamy K, Anbalagan J, Rajanarayanan S, Meenachi S	Department of Anatomy, Mahatma Gandhi Medical College and Research Institute, India; Department of Pathology, Mahatma Gandhi Medical College and Research Institute, India; Department of Biotechnology, St. Michael College of Engineering and Technology, India	Journal of Clinical&Diagnostic Research, Vol 10(8), Aug 2016, pp. 1-6
Effects of long-term exposure to 900 megahertz electromagnetic field on heart morphology and biochemistry of male adolescent rats	2016-08	Kerimoglu G, Mercantepe T, Erol HS, Turgut A, Kaya H, Colakoglu S, Odaci E	Department of Histology and Embryology, Faculty of Medicine, Karadeniz Technical University, Turkey; Department of Biochemistry, Faculty of Veterinary, Atatürk University, Turkey; Department of Electrical and Electronic Engineering, Faculty of Engineering, Karadeniz Technical University, Turkey; Department of Anatomy, Faculty of Medicine, Düzce University, Turkey	Biotechnic & Histochemistry, Vol 91 (7), Aug 2016, pp. 445-454
Response to "Children Absorb Higher Doses of Radio Frequency Electromagnetic Radiation From Mobile Phones Than Adults" and "Yes the Children Are More Exposed to Radiofrequency Energy From Mobile Telephones Than Adults"	2016-08	Foster KR, Chou CK	Department of Bioengineering, University of Pennsylvania, USA	IEEE Access, Vol 4, Aug 2016, pp. 5322-5326
SAR reduction using a single SRR superstrate for a dual-band antenna	2016-07 published online	Rosaline I, Singaravelu R	Department of Electronics and Communication Engineering, National Institute of Technology, India	Electromagnetic Biology and Medicine, Vol 36 (1), published online Jul 2016, pp. 39-44

The antioxidant effect of Green Tea Mega EGCG against electromagnetic radiation-induced oxidative stress in the hippocampus and striatum of rats	2016-07 published online	Ahmed NA, Radwan NM, Aboul Ezz HS, Salama NA	Zoology Department, Faculty of Science, Cairo University, Egypt	Electromagnetic Biology and Medicine, Vol 36 (1), published online Jul 2016, pp. 63-73
Measurement and mapping of the GSM-based electromagnetic pollution in the Black Sea region of Turkey	2016-07 published online	Tuysuz B, Mahmutoglu Y	Department of Electrical & Electronics Engineering, Department of Energy Systems Engineering, Recep Tayyip Erdogan University, Turkey	Electromagnetic Biology and Medicine, Vol 36 (2), published Jul 2016, pp. 132-140
Survival assessment of mouse preimplantation embryos after exposure to cell phone radiation	2016-07	Safian F, Khalili MA, Khoradmehr A, Anbari F, Soltani S, Halvaei I	Research and Clinical Center for Infertility, Shahid Sadoughi University of Medical Sciences, Iran	Journal of Reproduction & Infertility, Vol 17(3), Jul 2016, pp. 138-143
Comparison of average global exposure of population induced by a macro 3G network in different geographical areas in France and Serbia	2016-07	Huang Y, Varsier N, Niksic S, Kocan E, Pejanovic-Djurisic M, Popovic M, Koprivica M, Neskovic A, Milinkovic J, Gati A, Person C, Wiart J	Orange Labs, Chatillon, France; Institut Mines-Telecom Telecom Bretagne, Brest, France; Institut Mines-Telecom Telecom ParisTech, LTCI, Chaire C2m, Paris, France; Orange Labs, Meylan, FranceTelekom Srbija, Belgrade, SerbiaUniversity of Montenegro, Podgorica, MontenegroSchool of Electrical Engineering, University of Belgrade, Belgrade, Serbia	Bioelectromagnetics Vol 37(6), Jul 2016, pp. 382-390
Increasing incidence of thyroid cancer in the Nordic countries with main focus on Swedish data	2016-07 published online	Carlberg M, Hedendahl L, Ahonen M, Koppel T, Hardell L	Department of Oncology, Faculty of Medicine and Health, Örebro University, Sweden; Independent Environment and Health Research Lulea; Sweden; Institute of Environmental Health and Safety, Estonia; Department of Labour Environment and Safety, Tallinn University of Technology, Estonia; Department of Oncology, Faculty of Medicine and Health, Örebro University, Sweden	BMC Cancer, Vol 16:426, published online Jul 2016
Symptoms in Swiss adolescents in relation to exposure from fixed site transmitters: a prospective cohort study	2016-07 published online	Schoeni A, Roser K, Bürgi A, Rössli M	Swiss Tropical and Public Health Institute, Switzerland; University of Basel, Switzerland	Environmental Health, Vol 15, published online Jul 2016
Trigeminal neurons detect cellphone radiation: Thermal or nonthermal is not the question	2016-07	Marino AA, Kim PY, Frilot li C	Department of Neurology, Louisiana State University Health Sciences Center, USA; School of Allied Health Professions, Louisiana State University Health Sciences Center, USA	Electromagnetic Biology and Medicine, Vol 36 (2), Jul 2016, pp. 123-131

<p>Letter to the Editor_Histological and histochemical study of the protective role of rosemary extract against harmful effect of cell phone electromagnetic radiation on the parotid glands</p>	<p>2016-07</p>	<p>Mortazavi SM, Mortazavi G, Paknahad M</p>	<p>Medical Physics Department, School of Medicine, Shiraz University of Medical Sciences, Iran; Oral and Maxillofacial Radiology Department, School of Dentistry, Shiraz University of Medical Sciences, Shiraz, Iran</p>	<p>Acta Histochemica, Vol 118 (6), Jul 2016, pp. 657-658</p>
<p>Radiofrequency radiation at Stockholm Central Railway Station in Sweden and some medical aspects on public exposure to RF fields</p>	<p>2016-07</p>	<p>Hardell L, Koppel T, Carlberg M, Ahonen M, Hedendahl L</p>	<p>Department of Oncology, Faculty of Medicine and Health, Örebro University, Sweden; Department of Labour Environment and Safety, Tallinn University of Technology, SCO351 Ehitajate tee 5, Estonia; Institute of Environmental Health and Safety, Estonia; Independent Environment and Health Research Lulea, Sweden</p>	<p>International Journal of Oncology, Vol 49, Jul 2016, pp. 1315-1324</p>
<p>Effect of mobile phone radiation on pentylenetetrazole-induced seizure threshold in mice</p>	<p>2016-07</p>	<p>Kouchaki E, Motaghedifard M, Banafshe HR</p>	<p>Physiology Research Center, Kashan University of Medical Sciences, Iran; Department of Neurology, Kashan University of Medical Sciences, Iran; Physiology Research Center, Kashan University of Medical Sciences, Iran</p>	<p>Iranian Journal of Basic Medical Sciences, Vol 19(7), Jul 2016, pp. 800-803</p>
<p>A review on electromagnetic fields (EMFs) and the reproductive system</p>	<p>2016-07</p>	<p>Asghari A, Khaki AA, Rajabzadeh A, Khaki A</p>	<p>Department of Anatomy, Faculty of Medicine, Tabriz University of Medical Sciences, Iran; Department of Anatomy, Faculty of Medicine, Tabriz University of Medical Sciences, Department of Anatomy, Faculty of Medicine, Lorestan University of Medical Sciences, Iran; Women Reproductive Health Research Center, Tabriz University of Medical Sciences, Iran</p>	<p>Electronic Physician, Vol 8(7), Jul 2016, pp. 2655-2662</p>
<p>Exposure time-dependent thermal effects of radiofrequency electromagnetic field exposure on the whole body of rats</p>	<p>2016-07</p>	<p>Ohtani S, Ushiyama A, Maeda M, Hattori K, Kunugita N, Wang J, Ishii K</p>	<p>Department of Hygienic Chemistry, Meiji Pharmaceutical University, Japan</p>	<p>The Journal of Toxicological Sciences, Vol 41 (5), Jul 2016, pp. 655-666</p>
<p>Study of specific absorption rate (SAR) induced in human endocrine glands for using mobile phones</p>	<p>2016</p>	<p>Lu M, Wu XY</p>	<p>Key Lab. Of Opt-Electronic Technology and Intelligent Control, Lanzhou Hiatong University, China; Department of Endocrinology, The first Hospital of China University, China</p>	<p>7th Asia-Pacific International Symposium on Electromagnetic Compatibility, 2016, pp. 1084-1086</p>

RF-EMF exposure at 1800 MHz did not elicit DNA damage or abnormal cellular behaviors in different neurogenic cells	2017-04	Su L, Wei X, Xu Z, Chen G	Bioelectromagnetics Laboratory, Zhejiang University School of Medicine, China; Department of Public Health, Zhejiang University School of Medicine, China	Bioelectromagnetics, Vol 38 (3), Apr 2017, pp. 175-185
Evaluation of the potential of mobile phone specific electromagnetic fields (UMTS) to produce micronuclei in human glioblastoma cell lines	2017-04	Al-Serori H, Kundi M, Ferk F, Mi'k M, Ne rsesyan A, Murbach M, Lah TT, Knasmülle r S	Institute of Cancer Research, Department of Internal Medicine, University of Vienna, Austria; Center for Public Health, Institute of Environmental Health, Medical University of Vienna, Austria; Department of Genetic Toxicology and Cancer Biology, National Institute of Biology, Slovenia	Toxicology in Vitro, Vol 40, Apr 2017, pp. 264-271
Mitochondrial hyperpolarization and cytochrome-c release in microwave-exposed MCF-7 cells	2017-04	Esmekaya MA, Canseven AG, Kayhan H, Tuysuz MZ, Sirav B, Seyhan N	Department of Biophysics, Faculty of Medicine, Gazi University, Turkey	General Physiology and Biophysics Vol.36 (2), Apr 2017, pp. 211-218
Mitochondrial DNA damage and oxidative damage in HL-60 cells exposed to 900MHz radiofrequency fields	2017-03	Sun Y, Zong L, Gao Z, Zhu S, Tong J, Cao Y	School of Public Health, Soochow University, Suzhou, China; Laboratory Animal Center, Nantong University, Nantong, China; School of Public Health, Soochow Unive rsity, Suzhou, China	Mutation research, Vol 797-799, Mar 2017, pp. 7-14
Effects of RF-EMF Exposure from GSM Mobile Phones on Proliferation Rate of Human Adipose-derived Stem Cells: An In- vitro Study	2016-12	Shahbazi-Gahrue i D, Hashemi-Beni B, Ahmadi Z	Dept. of Medical Physics, School of Medicine, Isfahan University of Medical Sciences, Iran; School of Medicine, Isfahan Unive rsity of Medical Sciences, Iran	Journal of Biomedical Physics and Engineering, Vol 6 (4), Dec 2016, pp. 243-252
Biochemical and histological studies on adverse effects of mobile phone radiation on rat's brain	2016-12	Hussein S, El-Saba AA, Galal MK	Department of Cytology and Histology, Faculty of Veterinary Medicine, Cairo University, Egypt; Department of Biochemistry and Chemistry of Nutrition, Faculty of Veterinary Medicine, Cairo University, Egyp	Journal of Chemical Neuroanatomy, Vol 78, Dec 2016, pp. 10-19
Effect of Radiofrequency Radiation on Human Hematopoietic Stem Cells	2016-11	Gläser K, Rohland M, Kleine-Ostmann T, Schrader T, Stopper H, Hintzsche H	Institute of Pharmacology and Toxicology, University of Würzburg, Germany; Physikalisch-Technische Bundesanstalt, Germany	Radiation Research, Vol 186 (5), Nov 2016, pp. 455-465

<p>Effects of radiofrequency field exposure on glutamate-induced oxidative stress in mouse hippocampal HT22 cells</p>	<p>2016-10 published online</p>	<p>Kim JY, Kim HJ, Kim N, Kwon JH, Park MJ</p>	<p>Korea Institute of Radiological and Medical Sciences, Korea; Department of Pathology, College of Medicine, Korea University, Korea; School of Information and Communication Engineering, Chungbuk National University, Korea; Department of Radio Technology Research, Electronics and Telecommunications Research Institute, Korea</p>	<p>International Journal of Radiation Biology, Vol 93 (2), published online Oct 2017, pp. 249-256</p>
<p>The use of signal-transduction and metabolic pathways to predict human disease targets from electric and magnetic fields using in vitro data in human cell lines</p>	<p>2016-09 published online</p>	<p>Parham F, Portier CJ, Chang X, Mevissen M</p>	<p>National Institute of Environmental Health Sciences, Research Triangle Park, USA; Environmental Health Research, Switzerland; Division of Veterinary Pharmacology and Toxicology, Vetsuisse Faculty, University of Bern, Switzerland</p>	<p>Front Public Health, Vol 4 (193), published online Sep 2016</p>
<p>1950 MHz radiofrequency electromagnetic fields do not aggravate memory deficits in 5xFAD mice</p>	<p>2016-09</p>	<p>Son Y, Jeong YJ, Kwon JH, Choi HD, Paek JK, Kim N, Lee YS, Lee HJ</p>	<p>Division of Radiation Effects, Korea Institute of Radiological and Medical Sciences, Korea; Radio and Broadcasting Technology Laboratory, Department of EMF Research Team, Korea; Department of Radio Sciences and Engineering, College of Engineering, Chungnam National University, Korea; School of Electrical and Computer Engineering, Chungbuk National UniversityKoreaGraduate School of Pharmaceutical Sciences, Ewha Womans University, Korea</p>	<p>Bioelectromagnetics Vol 37 (6), Sep 2016, pp. 391-399</p>
<p>Untersuchung athermischer Wirkungen elektromagnetischer Felder im Mobilfunkbereich</p>	<p>2016-08</p>	<p>Molla-Djafari H, Schiessl K, Allgemeine Unfallversicherungsanstalt AUVVA, Schmid G, Kundl M, Knasmüller S, Mosgöller W</p>	<p>Allgemeine Unfallversicherungsanstalt, Österreich, SClgenia Forschungssupport GmbH & Medizinische Universität Wien, Österreich</p>	<p>Forschungsbericht ATHEM-2, Aug 2016</p>
<p>Neuroprotective effects of melatonin and omega-3 on hippocampal cells prenatally exposed to 900 MHz electromagnetic fields</p>	<p>2016-07</p>	<p>Erdem Koc G, Kaplan S, Altun G, Gümüs H, Gülsüm Deniz O, Aydin I, Emin Onger M, Altunkaynak Z</p>	<p>Department of Histology and Embryology, Faculty of Medicine, Adnan Menderes University, Turkey; Department of Histology and Embryology, Faculty of Medicine, Ondokuz Mayıs University, Turkey; Department of Physics, Faculty of Arts and Sciences, Ondokuz Mayıs University, Turkey</p>	<p>International Journal of Radiation Biology, Vol 92 (10), Jul 2017, pp. 590-595</p>
